Reading and Writing:

Reading

This week we will be reading "Big Questions: Are there Really Zombies in the World." The focus will be identifying credible sources. Click here to access the article.

As you are reading the article, consider the following questions:
1. Who is the author's intended audience?
2. What credible sources did the author use to identify the connections between zombies and voodoo?
3. How has the idea of zombies changed throughout history?
4. Summarize the article in 4 or 5 sentences. Be sure to include the author's purpose and main ideas of the text. Share your summary with a friend or family member.

Alternate Learning Opportunities

Representing ratios and rates
Note: Ratio is one of the most important ideas students learn in Grade 6. Ratios describe a comparison between two quantities. For example, a class on a field trip has one adult for every 15 students or a car is traveling at a rate of 50 miles per hour. This week, your student will explore the various ways ratios and rates can be represented. Your student will also practice some of the computation skills that are important for working with ratios. On Tuesday, your student will use food coloring or paints to mix colors.
