### Reading and Writing/Lectura y Escritura:

#### Interactive Learning Opportunity

We are so excited to share with you some learning opportunities that will provide your “soon to be kindergartner” a way to practice and maintain the skills they developed in PreK. It is essential that your child spends some time each day interacting with letters and numbers. The interaction could be as simple as having your child name a letter(s) on a cereal box, finding objects in the house that start with a particular sound like b, s, t,..., or say a word and have your child name a rhyming word. In addition, the following links will provide activities that will engage your child in playful and purposeful activities.

- [CLI Family Engagement Activities](#) Once you click on the link, you will find the title of each activity. Under each title, you will see the appropriate age level for that specific activity. Please select activities for 4 and 5 year old children.
